

# Environment

Work Package 27 | Leads: Executive Director (UNEP), Executive Secretary (UNFCCC)

## OBJECTIVE

**To streamline environmental support to Member States for more impactful action.**

## HOW WE GET THERE

- **Action 35: Undertake an assessment of current arrangements and make proposals** on possible changes and realignments on environmental issues.

## PROGRESS TO DATE

Analysis and mapping are under way across four areas: science, governance, coordination and implementation. This will inform the assessment of current arrangements. Initial findings highlight fragmentation and opportunities for stronger coordination, integration and synergies to advance coherence and strengthen global environmental action at all levels.

## NEXT STEPS AND DECISIONS

- **Action 35:** The analysis and mapping will be completed in April and the assessment by June for presentation to the Secretary-General. The Secretary-General will issue an information brief on the relevant issues arising from the assessment in **September**. Eventual proposals may be submitted for consideration by intergovernmental organs.

## QUICK SUMMARY: PATHWAYS AND PRODUCTS

Action	Pathway to decision	Products (dates)	Intergovernmental consideration
<b>Action 35:</b> Assess arrangements on environmental issues and make proposals	Work package leads → Secretary-General → Intergovernmental organs if relevant	• <b>Secretary-General's information brief</b> (September)	If relevant, depending on the Secretary-General's proposals
